

ONLYOFFICE Docs is the most secure and stable answer to document collaboration needs in vast infrastructures. Provide your office or classroom network with scalable, lightweight suite for any content management system or sharing environment within a cluster.

The most **secure** web office

Data protection and encryption

- End-to-end encryption of files
- Advanced spreadsheet protection tools
- Watermarks
- Digital signatures
- HTTPS

Advanced sharing permissions

Share files for editing, viewing, commenting, reviewing or filling forms. Restrict copy, downloading, and printing.

GDPR compliance

ONLYOFFICE sticks to data minimalism and complies with all provisions of General Data Protection Regulation.

Trusted open-source solution

We embrace transparency and openness, that's why we keep our ONLYOFFICE code open and ready for everyone to examine.

In any environment, **at any scale**

Installation in a cluster of your choice

Deploy ONLYOFFICE on Kubernetes or OpenShift cluster easily using Helm. Get assistance for any cluster deployment from our professional services team.

Seamless integration in your solution

Integrate ONLYOFFICE Docs into over 30 existing Sync&Share solutions: Nextcloud, ownCloud, Confluence, Alfresco, Jira, Redmine, SharePoint, Liferay and others. Build your own integration using open API.

Collaboration in big volumes

Host thousands of active document collaboration sessions (connections) simultaneously to sustain vast networks of users.

High-performance architecture

Our solutions provide guaranteed data resiliency, high server performance preservation, and fault tolerance on any scale.

Limitless editing and collaboration opportunities

Create and edit documents of all kinds

Work on files, contracts, forms, data sheets, and presentations with advanced editing and formatting features. Generate invoices. Build fillable forms and document templates. Create and browse editable PDFs, view e-books.

Co-author your files securely

- Co-edit files with colleagues;
- Browse file version history;
- Comment and chat;
- Review documents;

Work with documents of any type

Process MS Office, OpenDocument, and other popular formats with maximum compatibility and no distortions.

Access files from mobile and desktop

Work on documents locally and in the cloud with free desktop suite. Manage, edit and collaborate on the go with mobile applications for iOS and Android.

Premium support

Get professional assistance on every step: installation and configuration, updates, integration, branding, monitoring, clustering, and disaster recovery.

- ✓ Shortest response timeframe
- ✓ Chat and phone support
- ✓ Assistance via remote access
- ✓ Dedicated success manager
