

The reliance of financial agents on paperless practices and document automation dictates the highest ever standards for document security and workflow agility. In ONLYOFFICE, powerful document processing and collaboration meet top-notch data protection technologies.

Built for deployment in a private network, ONLYOFFICE Docs is secure by design. It can be integrated into any sharing environment, used as a part of ONLYOFFICE Workspace collaborative platform, integrated as a custom development component for document editing and automation.

The most secure **web office**

Data protection and encryption

- End-to-end encryption of files
- Advanced spreadsheet protection tools
- Watermarks
- Digital signatures
- HTTPS
- JWT

Compliance and certifications

ONLYOFFICE complies with provisions of General Data Protection Regulation (GDPR) and other internationally recognized standards.

Advanced sharing permissions

Share files for editing, viewing, commenting, reviewing or filling forms. Restrict copy, downloading, and printing.

Trusted open-source solution with closed circuit data stream

We embrace transparency and openness, that's why we keep our ONLYOFFICE code open and ready for everyone to examine. At the same time, every bit of data stays within client's private perimeter under their full control.

Expert-level **functionality**

Create and edit documents of all kinds

- Create and edit documents with advanced editing and formatting features;
- Work with contracts, forms, statements, reports, worksheets, and presentations;
- Automate paperwork without additional software using form builder;
- Generate invoices;
- Create and browse editable PDFs.

Work with all popular formats

Process MS Office, OpenDocument, and other popular formats with maximum compatibility and no distortions.

Co-author your files securely

- Co-edit files in real time;
- Browse file version history;
- Comment and chat;
- Review documents;
- Compare contracts and papers;
- Make voice and video calls.

Access files from mobile and desktop

Work on documents locally and in the cloud with free desktop suite. Manage, edit and collaborate on the go with mobile applications for iOS and Android.

Choose your way to use ONLYOFFICE Docs

Work with documents in your app with ONLYOFFICE Docs

- Integrate ONLYOFFICE Docs into any Sync&Share or CMS solution on a solo server, in federated environment, or on a cluster.
- Use developer API to incorporate the suite in your corporate system on any programming language under own brand.
- Get access to dedicated support and a lifetime license.

Automate document generation with ONLYOFFICE Document Builder

Create and process rich and universally compatible text files, spreadsheets, presentations and PDFs populated with your data. ONLYOFFICE Document Builder enhances document automation using all capabilities of the powerful editors.

Create a complete cloud office with ONLYOFFICE Workspace

Use ONLYOFFICE Docs within a native collaboration platform ONLYOFFICE Workspace. Get access to document management and sharing, project management, corporate mail, calendars and more. Install on your own server or use in the cloud.

Let our team do the rest

Professional support throughout installation, setup, and exploitation.

Product demonstration and training for your team.

API documentation, user guides, webinars, and How-Tos.
