

ONLYOFFICE Docs is a secure collaborative office tailored to the needs of educational organizations. With self-hosted and cloud-based deployment models, it can be integrated into any learning management system.

Expert-level **functionality**

Create and edit documents of all kinds

Create and edit papers, tests and assignments, worksheets, and presentations with professional academic editing and formatting features.

Create and fill online forms

Use existing form templates and create your own to quickly create assignments, workbooks, tests, and other items. Export forms and ready files to PDF.

Collaborate on files securely

- Co-edit files in real time
- Browse file version history
- Comment and chat
- Review files
- Organize audio and video conferences

Work with all popular formats

Work with MS Office, OpenDocument, PDF and other popular formats with maximum compatibility and no distortions.

Access from mobile and desktop

Protecting documents and **personal data**

Data protection and encryption

End-to-end encryption of documents and spreadsheets, electronic signatures, watermarks, HTTPS, JWT, limited cache lifetime.

Advanced sharing permissions

Share files for editing, viewing, commenting, reviewing or filling forms. Restrict copy, downloading, and printing.

Compliance and certifications

ONLYOFFICE provides all necessary tools for protection of personal data and complies with all provisions of GDPR.

Trusted open-source solution

We embrace transparency and openness, that's why we keep ONLYOFFICE source code open.

Fit for IT environment of **any school or university**

Learning management systems

Choose one of the ready integrations including Moodle, OpenOLAT, WebWeaver, Chamilo, and HumHub.

Popular Sync&Share services

Integrate ONLYOFFICE Docs into Sync&Share solutions: Nextcloud, ownCloud, Confluence, Alfresco, Jira, Redmine, Liferay and others.

ONLYOFFICE Workspace

Use ONLYOFFICE Docs within full-stack collaborative environment - ONLYOFFICE Workspace. Organize documents in built-in file management system, set up mail and calendars, and create a social hub for students and staff.

Any cloud platform using API

Use our open API to build integration app for any cloud service. Access multiple integration sample cases and professional assistance from ONLYOFFICE team.

%
