ONLYOFFICE DOCS:

Features overview

Expert-level editing functionality

All operations with fonts and styles, paragraph and text formatting. Inserting and customizing shapes, charts, tables, text boxes, etc. Easier navigation with footnotes, endnotes, cross-references, table of contents, bookmarks. Creating professional-looking forms and templates.

Integrated plugins

Extra functionality you might need: attending Zoom meetings and chatting in Telegram right from the editor, creating bibliographies with Mendeley and Zotero, translating documents, converting text to HTML, embedding YouTube videos, and much more.

Advanced collaboration

Real-time and paragraph-locking co-editing modes, review mode with Track Changes, built-in chat, comments, document comparison, version history.

Support of popular formats

High compatibility with DOCX, XLSX, and PPTX.
Support for ODT, ODS, ODP, DOC, XLS, PPT, PDF, TXT, RTF, HTML, EPUB, CSV, and others.

Highest formatting quality

Online editing without any quality loss.
Fast processing of multi-page documents.

100% identity

In viewing, editing and printing.

READY-TO-USE ONLYOFFICE CONNECTOR:
Features overview

Basic features

- File creation, editing, saving
- Opening files from the connected external storage
- Editing of the documents shared via public links
- File creation and conversion in public folder
- Inserting images from the file manager
- Save as option

File formats

- All formats support: conversion to OOXML for editing
- Easier work with ODT, ODS, ODP, RTF, TXT, and CSV by auto-converting and opening files directly for editing

Security

- JWT signature
- Restricting access to ONLYOFFICE Docs to user groups
- Preventing shared files from getting downloaded
- Watermarking (Secure View settings)

Federated Cloud Sharing

- Co-editing between federated cloud instances
- Force Save for federated clouds

Usability

- Ability to customize the editor's interface
- Zoom and auto-save customization
- Setting the default review display mode
- Opening the sidebar with access to the sharing dialogue from the editor
- Ability to use a self-signed certificate
- Mail Merge
- Force Save
- File preview generation
- Using guests' names from Talk
- Saving co-authors' names and local time in Version History

Integration

- Integration in the Viewer app to open files in chat
- Connecting ONLYOFFICE desktop
- Direct editing within Nextcloud Desktop
- Connecting Nextcloud in ONLYOFFICE mobile apps

Roadmap

- Document templates
- Mentions in comments

EASY TO INSTALL AND INTEGRATE

Well-structured API documentation

Detailed technical information needed for integration.

Various installation options

- Pre-built binaries
- Docker images
- Docker script*

*Also available for automatic installation of the combined Nextcloud-ONLYOFFICE Docs solution.

Available as Univention Virtual Appliance

ONLYOFFICE Docs can be installed in combo with Nextcloud as a pre-configured virtual machine, which doesn't require deep technical expertise.
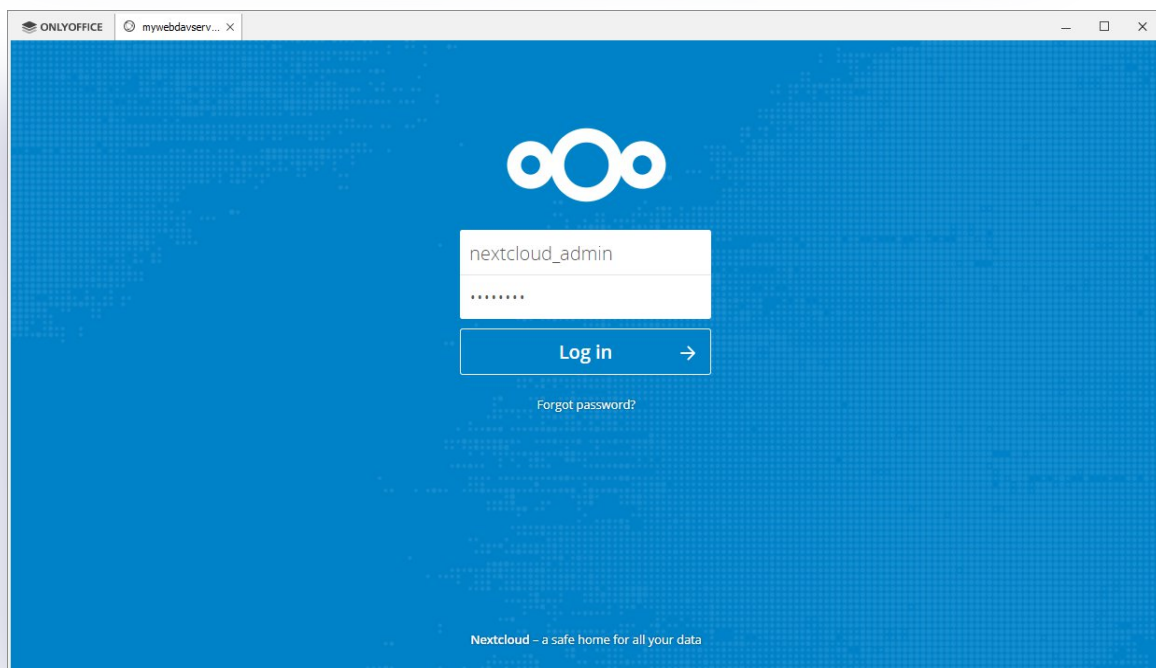

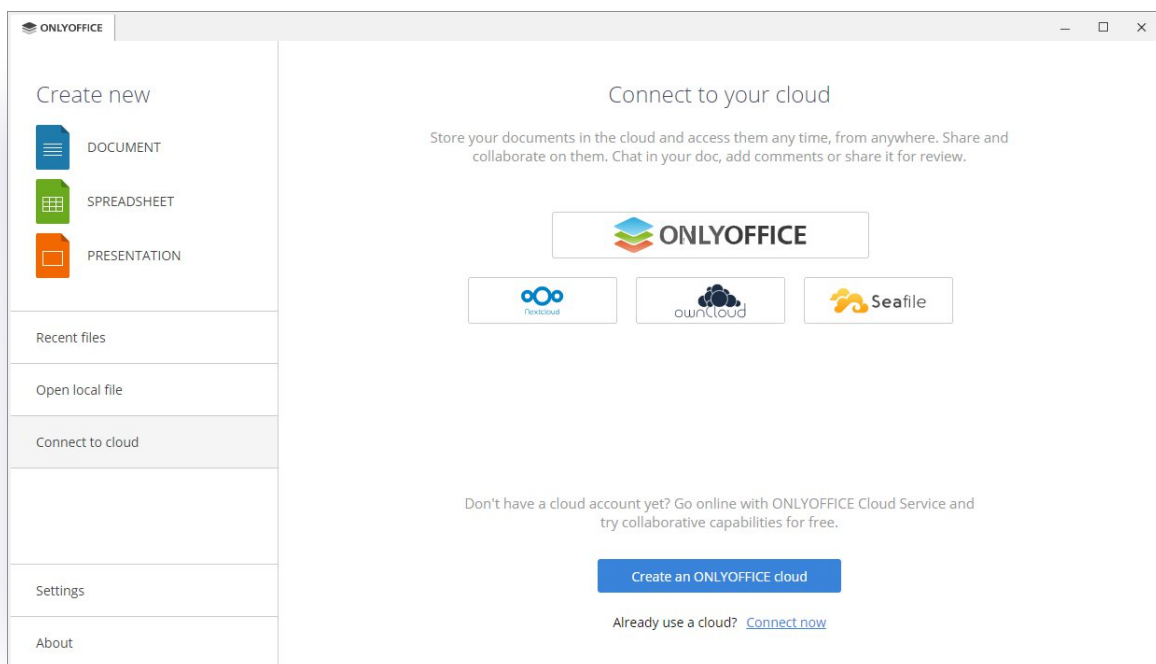

Demo server

You are able to test ONLYOFFICE Docs within Nextcloud for 30 days without actually installing the editors. To do so, you only need to get ONLYOFFICE integration app and activate the connection to the demo server.

Connect free ONLYOFFICE Desktop Editors to your Nextcloud
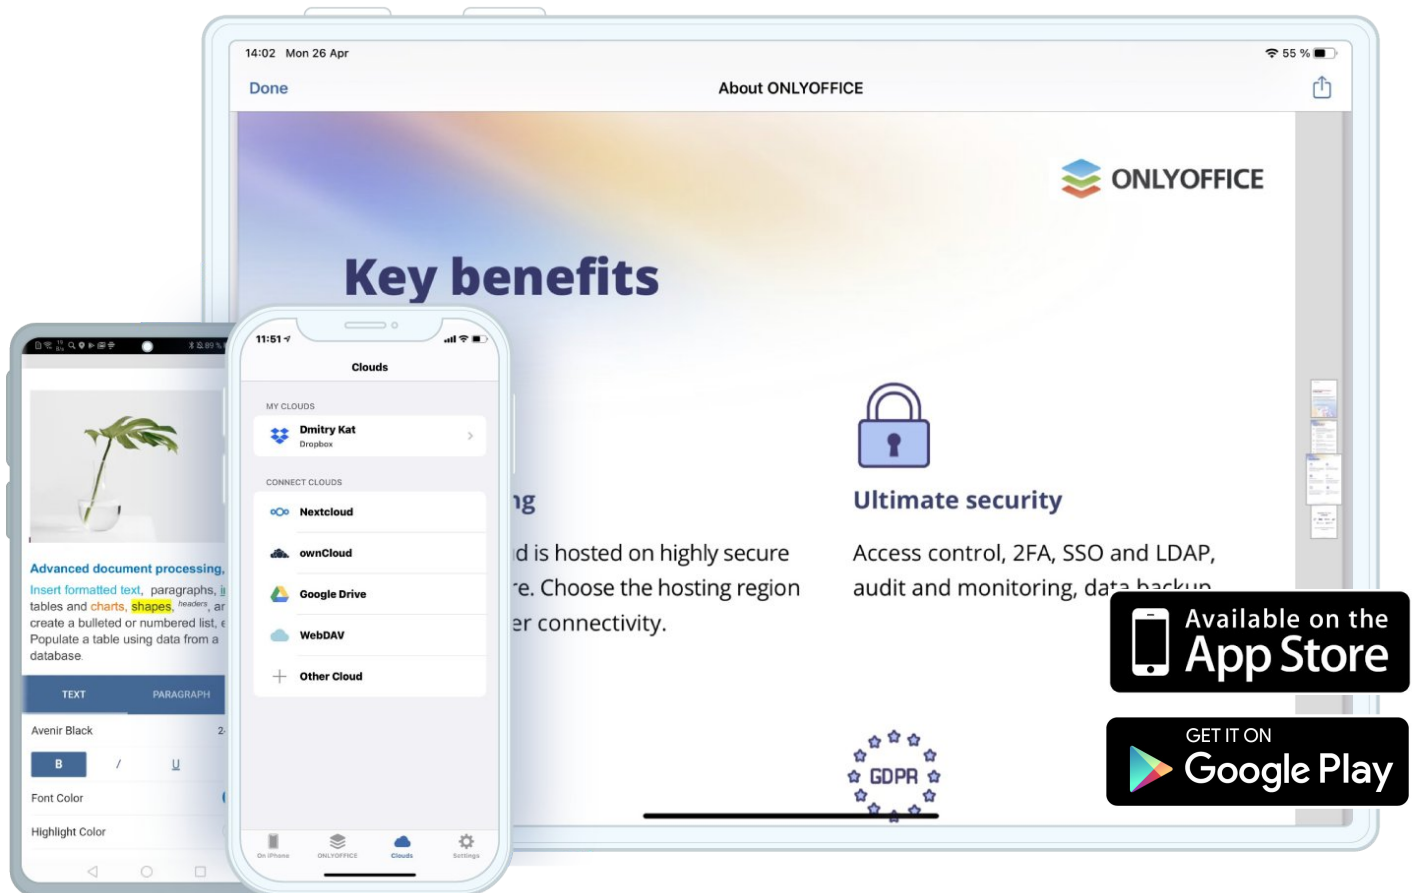

For Windows/Linux/macOS

You will get:

- Features available in your desktop suite instance and not present in the online editor, including local plugins, fonts, and spellchecker.
- Direct access to print service.
- Advanced work with buffer.

Manage docs on the go with free ONLYOFFICE mobile apps

For iOS/Android

With ONLYOFFICE Documents for mobile devices, you can easily connect Nextcloud via WebDAV and work with your documents directly from the app.
