ONLYOFFICE Docs

Powerful and secure document processing for health industry

In medical practice, safekeeping of patient data, either own or associates', is not only an essential legal asset but also an honest way to earn trust of customers and partners.

Built for deployment in a private network, ONLYOFFICE Docs suite is secure by design. It can be integrated into any sharing environment or used as a component in any web application to provide editing and collaboration on records, patient files, datasheets, and any other paperwork with high format compatibility, rich functionality and advanced collaborative features.

The most secure web office

Data protection and encryption

End-to-end encryption of documents, HTTPS, JWT, limited cache lifetime.

Advanced sharing permissions

Share files for editing, viewing, commenting, reviewing or filling forms. Restrict copy, downloading, and printing.

Trusted open-source solution

We embrace transparency and openness, that's why we keep our ONLYOFFICE code open and ready for everyone to examine.

Compliance and certifications

ONLYOFFICE complies with all provisions of General Data Protection Regulation and provides the necessary technological safeguards for HIPAA compliance. ONLYOFFICE solutions are compatible with ISO 27001 and HDS.

Expert-level functionality

Data protection and encryption

Work on medical files, contracts, forms, datasheets, and presentations with advanced editing and formatting features. Create fillable forms to compose patient files and contracts. Generate invoices. Digitally sign agreements.

Work with all popular formats

Work with MS Office, OpenDocument, and other popular formats with maximum compatibility and no distortions.

Co-author your files securely

- Co-edit files with colleagues.
- Browse file version history;
- Comment and chat;
- Review documents;
- Compare contracts and papers;

Access files from mobile and desktop

Work on documents locally and in the cloud with free desktop suite. Manage, edit and collaborate on the go with mobile applications for iOS and Android.

Key benefits

Multiple deployment options

Integrate docs into over 30 existing Sync&Share solutions or use Docs under your own brand within any web application written on any programming language with well-documented open API libraries.

Scalability

Deploy Docs in the federated environment or install it as a cluster to deliver seamless simultaneous document processing to thousands of users.

Lifetime license

Choose a preferable option based on number of simultaneously edited documents and level of professional support, and get a lifetime solution with one year of professional assistance and regular updates.

Free trial

Try ONLYOFFICE docs in your network for free for 30 days.

Trusted by 7 000 000 users worldwide

Technical support is provided for one year of paid license. Support levels differ for each tariff.
